

Contact: Malá 543, Liberec, 46312, Czech Republic
fulka@outlook.cz, +420 722 659 255

Date of Birth: 17.01.1975

Professional Summary:

Project manager with over 20 years of experience in delivering complex technical and research projects, focusing on process optimization and carbon/cost reducing workflows through standardization and digitalisation with responsibility for partial budget, schedule of task delivery and associated QA/QC performance.

Key skills:

Project Management: Leading multidisciplinary project teams, cost control, scheduling, and risk management.

Digitalisation & Automation: VDC, BIM, digital twins, graphical and data models, process integration (API, IFC, IDS).

Technical Coordination: Experience as Lead Design Engineer, oversight of design teams, junior engineers, fabrication and installation processes, author supervisions, expert assessments, reporting and consultation services.

Software: AutoCAD, Revit, Civil 3D, Navisworks, MS Project, Trimble, O365...

Sustainability & Efficiency: CO₂ assessments, material-flow analysis, DPP Digital Product Passport for circular economy.

Languages: Czech (native), English (Cambridge Exam C1), German (basic), Russian (basic).

Work history:

IX.2025-today

The Extreme Light Infrastructure ELI ERIC, Dolní Břežany, Czech Republic

Research Engineer/ FlexRICAN project/ budget 5mil EUR;

Responsibility for energy chain optimisation, wind power generation tool development and photovoltaic efficiency estimation under condition of climate change projection models, focused on cutting edge cost/carbon reducing methodologies of operating big science facilities

Digital Infrastructure Engineer, BIM & Digital Twins, Energy Flexibility, AI-Driven Building & Asset Management, Carbon & LCA Specialist

III.2023-today

Czech Technical University in Prague (CTU), Prague, Czech Republic

Researcher – Reconmatic project, responsibility for Digital Tools Implementation WP2/T2.1

Implementation of digital tools in demonstration cases, collaboration on the preparation and delivery of training, and sustainability assessments for selected Horizon Europe solutions. Automation of information transfer within BIM models to physical products using the GTIN-based methodology.

PhD Candidate – Circular Economy & cost/carbon reducing principles in Infrastructure

Research focused on prediction-based methods for cost/carbon reductions in infrastructure environment, across the full life cycle asset. Implementation of digital tools, execution of sustainability assessments, and collaboration with industry partners on developing data-driven, solutions.

IX.2024-IX.2025

Road and Motorway Directorate of the Czech Republic (ŘSD), Prague, Czech Republic

Department of Strategy and Innovation – BIM Specialist / Coordination Officer

Leadership of digitalisation across design preparation and internal organisational processes. Preparation of internal data standards and EPDs and EIRs/AIRs according to EN ISO 19650.

Participation in the SCOPE 3 carbon-tracking project. Responsibility for project management in the role of Lead Design Engineer, including budget control and schedule compliance. Implementation of data standards and CDE systems.

V.2022-IV.2024	STRABAG a.s., Directorate TA, Prague, Czech Republic <i>BIM Specialist - Department of Strategy and Innovation</i> Responsible for the piloting of development carbon and cost reducing methods of construction within the central business unit. Process analyst focused on innovation in transport infrastructure, BIM coordination and digitalisation, development of data standards, CO₂ assessments, and the integration of circular-economy principles and CDW management into construction processes.
VIII.2009-IV.2022	Valbek spol. s r.o., Liberec, Czech Republic <i>Head of BIM Technologies / BIM Manager</i> Lead Design Engineer, responsible for development and implementation of BIM workflows within group development unit, liaising with clients, preparation of BEPs, 3D modelling, data standards development and leadership in collaborative workflows within CDE environment. Leadership of bridge-structure modelling in Revit/Civil 3D, coordination of multidisciplinary teams, and delivery of pilot projects for key contractors.
VII.2006- VII.2009	Parsons Brinckerhoff Ltd., Manchester, United Kingdom <i>Junior Engineer / CAD Associate (USA) / BIM Modeller</i> Accountable for feasibility studies, tender documentation, and detailed design. Lead of a design team including junior engineers. Initiated BIM processes, prepared feasibility studies for Network Rail, and performed CAT 2 design checks. Became a Bridge Inspector for Ireland (Eiespan) and a Member of the Institution of Civil Engineers (ICE).
II.2002-X.2005	Valbek spol. s r.o., Liberec, Czech Republic <i>Senior Engineer</i> Responsible designer for detailed design of transport-infrastructure structures.
IX.2001-II.2002	V+M s.r.o., Liberec, Czech Republic <i>Structural Designer</i> Focused on 3D reinforcement modelling and prefabrication automation in Nemetschek Allplan and training program for designers, implementing digital workflows, optimising reinforcement-modelling processes, and supporting the design of both new structures and reconstructions.
Other:	Beer-Sheva – Hatzerim, Israel (1998) Site Engineer: Site supervision of landscape works, retaining-walls construction, irrigation systems and associated infrastructure tasks. Sustenpass, Switzerland (1997) Environmental Analyst: Environmental assessments in high-alpine glacial areas, including terrain mapping and evaluation of environmental impacts. PK Ossendorf s.r.o., Czech Republic (1995–1999) Junior Designer (part-time): Design support for transport infrastructure and structural works
Education:	Brno University of Technology, Faculty of Civil Engineering, Brno, Czech Republic
Professional Memberships & Qualifications:	Czech Technical University in Prague (CTU) – Postgraduate studies in Circular Economy and cost/carbon reducing principles. EU Horizon Europe (FlexRICAN project: Grant agreement ID: 101131516) – Consortium member and Work package Leader WP4/WP7 (2025–present). EU Horizon Europe (RECONMATIC project: Grant agreement ID: 101058580) – Consortium member and Task Leader T2.1 (2022–present). Ministry of Transport of the Czech Republic – Certified Bridge Inspector, Licence No. 173/2015 (2015–present). State Fund for Transport Infrastructure (SFDI) – Member of the experts for Data Standard development (2019–2025). buildingSMART International – Foundation Professional Certification, Code: wVQxZIBovs.
Interests & Activities:	Travel, cycling, windsurfing, downhill skiing, environmental ethics, community engagement
